

Aditya Misra

adityamisraa2910@gmail.com | Java Backend Developer | [LinkedIn](#) | [Leetcode](#) | Mobile: 9328381970

Education

Institute of Technology, Nirma University

Bachelor of Technology in Computer Engineering (CGPA: 8.47)

Gujarat, India

May 2015 – May 2019

Experience (6yrs)

Goldman Sachs

Software Engineer 2 Epam Systems

Bengaluru, India

May 2024 – July 2025

- **Risk Calculation Engine:** Implemented algorithms to assess credit risk, market risk, and operational risk based on predefined thresholds and regulatory requirements.
- Reduced loan approval turnaround time by 40 percent through real-time credit and market risk scoring based on live transactional and static Excel data.
- Upgraded the entire codebase from Java 8 to Java 17, leveraging sealed classes, records, and switch expressions, resulting in 20 percent cleaner code .
- Tech Stack:- **Java, Spring Boot, Microservices, Oracle, Kafka, JPA.**

PayPal

Software Development Engineer 2 (SDE2)

Bengaluru, India

May 2022 – April 2024

- **CROWN:** Led development of **Fraud Claims and Chargeback** in CROWN (Fraud Case Management tool), automating fraud operations and reducing manual intervention.
- Developed and maintained an internal application for PayPal's Line of Credit fraud operations, improving development processes and user experience.
- Optimized application performance by 15% following best practices in microservices integration and REST API development.
- Reduced Average Handling Time (AHT) by 20% through backend optimizations and automation of fraud investigation & prevention flow.

Walmart

Software Engineer 3 (IN3)

Bengaluru, India

Sept 2021 – April 2022

- **Cptymas:** Improved carrier allocation efficiency through an optimized capacity management system.
- Integrated cancellation features and identified critical application bugs, ensuring smooth deployment.

Deutsche Bank

Senior Analyst

Pune, India

July 2019 – Sept 2021

- **LSF Rating Tool:** Developed a **Credit Risk Rating tool**, enabling credit officers to determine ratings, guide credit limits, and assess risk levels, reducing processing time by 20%.
- Designed and implemented the **LSF Uploader Tool**, allowing seamless upload of BMS Excel Sheets onto the GCRS Platform.
- Built robust parsing and validation logic using **Apache POI** and **Java Jeasy Rules**, ensuring data integrity.

Skills

Java, Java 8, Spring, Spring Boot, Spring MVC, Microservices, Data Structures and Algorithms ,Object Oriented Programming, Design Patterns, Hibernate, SQL Scripting,Oracle, RDBMS, Kafka, Azure, Rest, TDD, Junit5 Testing, Mockito, Docker, Kubernetes, Git, REST API, LLD, HLD, System Design, Maven, CI/CD, Prometheus, Grafana, Jenkins, Debugging, Troubleshooting, Problem Solving, Cross team collaboration, Production Support, Active Ownership.

Achievements

- **PayPal - Bravo Award** (Nov 2023): Recognized for coordinating and ensuring a smooth release of a security vulnerability fix as part of an API upgrade.
- **Walmart - Bravo Award** (Jan 2022): Awarded for exceptional contributions in integrating the cancellation feature and identifying critical bugs.
